FRONT-END WEB DEVELOPER

## Experience

### AD Creative Group - Billings, MT

*Mar 2020 - Current*

#### FRONT-END WEB DEVELOPER

In this role I leverage PHP, Javascript and Bootstrap to create custom Wordpress themes for our clients which are fully functional and responsive. I am also responsible for updating and maintaining a number of websites on a monthly basis.

### Fragment Labs - Raleigh, NC (Remote)

*Jan 2019 - Oct 2019*

#### FRONT-END WEB DEVELOPER

I worked on a redesign project creating a fully responsive frontend SPA built with Laravel, Vue and Vuex that integrated with a Laravel backend. It used Axios to call the backend API and Bulma as the css framework. It included a registration form, token based authentication and an account dashboard for authorized users.

### Freelance

*Jul 2017 - Feb 2019*

#### FREELANCE WEB DEVELOPER

I created and maintained fully responsive websites using PHP, Vue, Laravel and Javascript, along with Bootstrap and MySQL.
